

Heaven Meets Earth Collection

Fine Art Home Decor
by SAMMY JADE PHOTOGRAPHY

FLORA COLLECTION

Our Flora Collection beautifully captures nature's beauty and her florals in a Fine Art Style. It includes our most popular, the famous Protea flower, and also boasts some beautiful succulents and other florals our country has to offer.

FAUNA COLLECTION

South Africa wouldn't be our country, if we didn't have our majestic farm life and Nguni pride. The FAUNA Collection captures the strength and beauty of these animals. This collection includes cattle families across different species and beautiful Nguni statements.

ABOUT US

It's more than just art...

Long before my photography journey even started, I had a love for nature I couldn't really put into words. It wasn't always just the perfect colouring of never-ending botanicals mixed with the purple-orange of a sunset, but the silence and the still that came with it when staring at this creation ... at His creation. It's as if He wanted us to smile, and be still, when looking at this little piece of Heaven, knowing that this one day awaits all of His children in heaven.

Why did I start Heaven Meets Earth Collection?

Have you ever just stared at the ocean, or the sky, perhaps breathtaking mountains from your car window, or some flowers, and felt so at peace that you feel your troubles are being lifted from your shoulders, and you have this indescribable calmness that flows over you? This is the still and calming effect I want these Fine Art Pieces to have on its owners: to "Be still and know". To find wellness within your soul. And to know that even amidst a storm, God is fiercely in control, and you have a peace that supersedes all human understanding. This is what it's like for me when I photograph nature. From the bottom of my heart, I believe that He brought down to earth this indescribably humble beauty in the form of nature for us to marvel in, and be thankful. And this, this is where Heaven Meets Earth. If this piece of nature hangs in your home, it should be a reminder of what Heaven will be like - peaceful as we surrender. And it should also remind you that God has a Heaven-driven purpose for YOU, here on this earth.

So, here's my pitch to you...

If you want a visible daily reminder of that feeling of peace, gratitude and contentedness overwhelming your heart; of God's masterful creation; of that indescribable peace in your heart; and of that total surrender to God's plan for your life; then you have to have a little piece of Heaven hanging on your very own wall at home.

Heaven Meets Earth Collection is way more than just art, or home decor. Understanding this will open your heart to so much beauty God has given to your life.

Be blessed!
Sammy

002

Our 003 Protea Loud stands proud and proclaims its beauty loudly. This piece is subtly different than the previous, but no less powerful.

HMEC
003

Our Loud Proteas 002-004 are very similar, but all three boast unique and subtle beauties. They are also perfect for a collection trio with their subtle differences.

HMEC
004

Instead of three separate Portraits, here is the 005 Loud Protea Collection Trio available in a Landscape option in a single frame.

With power, comes Grace. The naturally lit South African Power is perfect for a single-wall statement or feature-wall in your home.

HMEC
015

This Portrait is perfect for the darker interior tones, a perfect pairing of light wood and grey tones - a more modern colour palette. The light in the surroundings compliment the contrasting moody tones.

HMEC
016

This piece transcends the rules of interior design. In a more modern look with different wooden textures and styles, this statement piece ties it all together, creating a finished look to your modern interior design.

018B

018C

Our beautiful NGUNI Style Collection was captured in the welcoming fields of Thandanani Ngunis Farm near Paul Roux in the Free State Province. The hospitality of both the owner and the animal was a special occurrence.

It was in these fields that I stood, 8 months pregnant, perfectly still and calm amidst these wildly majestic animals. This experience taught me exactly how beautifully welcoming nature can be.

From their African descent to their strength, it's clear that these animals can teach us more about resilience and surviving the toughest. We have so much to learn from these animals who have survived the harshest African conditions, only to come out conquerors and stronger.
